CERTIFICATIONS

- Foundation of Coding Full-Stack by Microsoft ([view](#))
- Introduction to DevOps by IBM ([view](#))

EXPERIENCE

(2023 – Present)

- Self-learning MERN stack development through online platform e.g. Youtube, Coursera, Udemy, LeetCode, freeCodeCamp

PROJECTS

Car Modifier Website ([view](#))

- Built a MERN stack app to let users customize cars with colors, wheels, and accessories.
- Designed responsive UI in **React.js** and managed backend with **Node.js & Express.js**.
- Stored and retrieved car configurations using **MongoDB**.

Smart Task & Team Manager (Trello + AI) ([view](#))

- Developed a task management app inspired by Trello with boards, lists, and cards for team collaboration.
- Integrated **AI features** to auto-prioritize tasks and suggest deadlines based on workload.
- Implemented **MERN stack architecture** with real-time updates and secure user authentication.

E-Commerce Store with Custom Recommendation Engine ([view](#))

- Built a full-stack **MERN e-commerce platform** with product listings, cart, and secure checkout.
- Implemented a **custom recommendation engine** to suggest products based on user behavior.
- Designed responsive UI in **React.js** and managed backend logic with **Node.js, Express, and MongoDB**.
